Personal Projects

- Hotel Management System** 2022
* This Project hotel Management System is a web based application that allows the hotel manager to handle all hotel activities online. Interactive GUI and the ability to manage various hotel bookings and rooms make this system very flexible and convenient. The hotel manager is a very busy person and does not have the time to sit and manage the entire activities manually on paper.
- Job News Android App** 2023
* In the Job News Android app project, I designed an intuitive interface for users to access real-time job updates. Integrated features include personalized job recommendations, user-friendly search functionality, and push notifications for timely alerts. The app aims to streamline the job search process, providing a comprehensive and efficient user experience.
- Random Chat App** 2023
* In the Random Chat Android app project, I developed an engaging platform for spontaneous conversations. The app features a user-friendly interface, instant connections with random users, multimedia sharing capabilities, and safety measures. It fosters serendipitous social interactions, making it an entertaining and dynamic space for users to connect with others globally.
- Language Learning App** 2023
* In this Android language learning app project, I developed a user-friendly interface, integrated diverse language courses, and implemented personalized learning paths. Interactive exercises, real-life context, and social features enhance engagement.

Experience

- ARDENT COMPUTECH Pvt. Ltd** KOLKATA
INTERNSHIP
Web Designer 08/2022-09/2022
* As a web design intern at Ardent Computech Pvt.Ltd., I focused on creating visually appealing and user-friendly website layouts. I collaborated with the design team, contributing to wireframes, prototypes, and graphic assets, gaining hands-on experience in transforming design concepts into engaging online experiences.
- Digihub** KALYANI
TEAM HEAD
Full Stack Developer 08/2023- Present
* As a Full Stack Developer, Eajaj Ahamed brings expertise in both front-end and back-end development, ensuring end-to-end solutions for web and mobile applications. With skills spanning HTML, CSS, JavaScript, React, Node.js, and more, Eajaj excels in crafting seamless, user-friendly experiences while leveraging robust backend systems for optimal performance.
